

Comparison Tool

With our comparison tool, it's now possible to review emissions data from various countries, regions, sectors, and individual facilities side-by-side.

Choose which greenhouse gases and time horizon to explore for an even more granular view.

Filter results to rank and compare emissions of Interest

Emissions total exclude LULUCF. Emissions from forestry and land use change are excluded from the country totals. To view emissions from this sector, select 'Forestry and Land Use' from the menu.
